

Report explainer

SDGs Alignment Cards Activity Report

Overview

The Activity Report provides data about the dynamics of the solution ecosystem over time. It shows initiative activity for a selected SDGs Alignment Card data between two selected dates, including:

1. Total SDGs Alignment Card Initiatives, additions and removals
2. Target activity: the addition and removal of targets
3. Updates to target comments
4. Updates to any comments updated to 'Actual' status

Activity Report

This report shows the addition and removal of characteristics across initiatives over a period of time.

3.6 Reduce road injuries and deaths		0	0	0	0	
3.7 Universal access to sexual and reproductive care, family planning and education		0	0	0	0	

1. Total SDGs Alignment Card Initiatives

These cells (Row 6) capture the changes to the **number of initiatives** on a selected SDGs Alignment Card between selected dates. The following data is captured:

1. **Initiatives beginning of period:** The total number of initiatives at the start of the date range.
2. **Additions:** The total number of initiatives added within the date range.
3. **Removals:** The total number of initiatives removed within the date range.
4. **Initiatives end of period:** The total number of initiatives at the end of the date range (= the total number of initiatives at the beginning of the date range, add additions during the date range, minus removals during the date range).

Report explainer

2. Sustainable Development Goals Activity

These cells (Rows 7 and below, and Columns B-E) capture the changes to the total **number of Targets** with Actual status on a selected SDGs Alignment Card between selected dates. The following data is captured:

1. **Targets beginning of period:** The total number of targets ticked across all goals at the start of the date range.
2. **Additions:** The total number of targets ticked (added) and saved with Actual status across all goals within the date range
3. **Targets end of period:** The total number of targets ticked across all goals +/- additions and removals at the end of the date range.

3. Updates to Targets comments

The Updates to Targets Comments are shown in (Column E – New Comments Saved assigned Actuals, and Rows 7 and below). Column E captures the **total number of New Comments saved** to a target across the 169 targets on a selected SDGs Alignment Card between the selected dates.

Note: If the first comment for a target was added between the dates selected, this will be included in the total for Updates to Targets Comments.

Saved Comment data included in Activity Report

There are two ways to save comments data:

1. Updating Existing Comment – this is not included in Activity Report data.
2. Save New Comment – This is included in Activity Report data.

1. Updating Existing Comment

Updating Existing Comment is used to edit or update an existing comment when the way a target is addressing a goal has not changed. This will edit the comment details in the history but the original date that it was entered will remain unchanged. Updating Existing Comment is used when rewording comments or adding additional information to a comment.

Note: Updating Existing Comment updates are **not** included as a Target Comment Update in the SDGs Alignment Card Activity Report.

Report explainer

2. Save New Comment

Save New Comment is used when you are entering new data about how a target is being addressed, and how the target is being addressed is fundamentally different to how it was being addressed in the previous saved comment. Save New Comment is more than a change to the wording.

Note: These saved New Comments **are** included as a Target Comment Update in the SDGs Alignment Card Activity Report.

Insights from this report

The Activity Report may be used to:

- Show changes to the number of initiatives in your solution ecosystem over a selected period of time.
- Highlight gaps in effort by summarising the total initiatives that have included each of the targets across the 17 Sustainable Developments Goals and targets.
- Highlight those targets that may need strengthening.
- Show those targets that are being addressed by many initiatives.
- Show how initiatives are addressing a target in a new way via comment updates during a selected time period.
